## Can I use a prepaid credit, debit, or gift card to pay for a premium membership?

Customer Support - 2020-03-18 - in Seeking

Yes, all of these payment methods are accepted.

To help avoid any issues or delays, please make sure that:

- Your prepaid card has been fully activated by following the instructions enclosed with the card (if applicable).
- You use the same zip code that was registered with your card (if applicable) during the checkout process.
- You use a valid name -- **do not** use a name such as "Gift Card".
- You use a valid address.
- You use a valid phone number.

If the transaction won't seem to process while using your prepaid card, please [contact us here](#) for further assistance (remember to include the card information and zip code). We'll be happy to try running the card through an alternate merchant!
